

## Weekly Report for BME401

**Date:** 11/18/13

**Project Name:** Pusher Syndrome Monitor

**Group Number:** 13

**Group Members:** Jake Hoyne, David Glaubke, Pat Naureckas

### **Current status of project:**

During this week we completed the following:

- Updated design requirements
- Finalized design for the phone attachment portion of the device
- Software capable of obtaining real-time positional data from the smartphone sensors

### **Work planned for next week:**

This week will be spent performing the following tasks:

- Further software development to allow for threshold and feedback responses
- Materials research into the phone attachment
- Finalization of the strap portion of the device
- Initialization of the user-interface

### **Anything needed from client or TA or instructor to continue work:**

There are no questions at this time.
