

Weekly Report for BME401

Date: 9/23/13

Project Name: Pusher Syndrome Monitor

Group Number: 13

Group Members: Jake Hoyne, David Glaubke, Pat Naureckas

Current status of project:

We have been continuing our background research for the preliminary paper, and are beginning to write the paper and presentation. We have also assigned group responsibilities moving forward and have created a project schedule for the semester.

Work planned for next week:

This next week will primarily consist of writing for the paper and presentation due on Monday. In the process, we will finish our background research so we may transition into the second phase of the project.

Anything needed from client or TA or instructor to continue work:

Nothing is needed at this time.
