

Weekly Report for BME401

Date: 9/30/13

Project Name: Pusher Syndrome Monitor

Group Number: 13

Group Members: Jake Hoyne, David Glaubke, Pat Naureckas

Current status of project:

We have finished our preliminary presentation, which was given to the class earlier today. Further, we are in the process of finishing our preliminary paper, which is due on Wednesday, 10/2/13. The bulk of this paper has been completed, and we currently adding the finishing touches such as figures, captions, in addition to the final editing.

Work planned for next week:

The first half of this week will be dedicated to finishing our preliminary presentation to hand in on Wednesday. Afterwards, the website will be created with all pre-existing content such as weekly reports and project scope. We will then be transitioning into the second phase of the project, where we will be brainstorming possible design solutions.

Anything needed from client or TA or instructor to continue work:

Nothing is needed at this time.
