

## Weekly Report for BME401

**Date:** 10/28/13

**Project Name:** Pusher Syndrome Monitor

**Group Number:** 13

**Group Members:** Jake Hoyne, David Glaubke, Pat Naureckas

### **Current status of project:**

We have finished brainstorming our design alternatives, and are currently working on finishing our presentation and paper due on Wednesday. David has also been working on sketching our solutions in Adobe Illustrator.

### **Work planned for next week:**

Now that our research is complete, we will finish the Pugh charts in order to assess the viability of each design, and ultimately decide on a final solution. We will then finish our second paper, due on 10/30/2013. From there, we will begin the transition into the third and final phase of the project.

### **Anything needed from client or TA or instructor to continue work:**

Nothing is needed at this time.
